TRAILS END WATER DISTRICT Working Session 10/29/21 MINUTES

CALL TO ORDER: The working session came to order at 4:30 pm

ATTENDANCE: Joe Morris, Sarah Carlson, Commissioners

DISCUSSION TOPICS:

Raise in cost of insurance commensurate with the raise in our estimated system appraised valuation. It will be \$6145 next year.

We have placed one lien on a property that does not seem to be occupied and there has been no response to numerous attempts to collect payment. There are a couple other customers with past due accounts, but it was decided to monitor these for a while before placing liens due to unusual circumstances. It is felt that some of these issues may resolve themselves without the lien.

Mr. Morris purchased a hand-held siphon pump.

Deb had msg from Nick Howell is going in for heart surgery. They are going to try to get her in touch with someone from the company to help Deb with the final stages of the generator installation.

She also spoke with Steve Cook, an acquaintance, he is a water operations guy with lots of knowledge to help out. This will be a good network to help us replace Nick at top dog. Joe has already been looking around for someone local and reliable.

Joe will be flushing the lower line. Ready to pump for the 24-hour test. He will be contacting Northwest water systems to schedule monitoring.

ADJOURNMENT:

The meeting adjourned at 5:	00 pm.
